SUMMARY

Results-driven Web Developer with 2+ years of proven expertise in WordPress development, technical support, and performance optimization. Adept at delivering responsive, SEO-optimized websites and successfully executing CMS-to-WordPress migration projects with a focus on stability and scalability. Skilled in translating complex requirements into reliable digital solutions while ensuring seamless user experiences. Recognized for combining creativity, analytical problem-solving, and technical precision to build interfaces that are both intuitive and scalable.

EXPERIENCE

WordPress Developer & Technical Support Specialist

DMroom – Tehran, Iran

Mar 2023 – Jul 2025

- Provided technical support for more than 20 WordPress websites.
- Designed and launched over 10 fully functional WordPress websites.
- Managed more than 10 CMS-to-WordPress migration projects successfully.
- Optimized performance for over 30 WordPress websites.

Rahnema College

Front-end developer course

Jul 2025 - October 2025

- Built responsive UI components for user authentication, posts, comments, and likes using React, Tailwind CSS, JavaScript, and TypeScript, ensuring smooth interactions and a mobile-first experience.
- Designed and implemented reusable React components to manage user feeds, post creation, and interactive features such as likes and comments (excluding stories).
- Applied state management to handle complex user interactions and dynamic content efficiently.
- Ensured cross-browser compatibility and accessibility standards for all key features.
- Collaborated with backend team to integrate APIs, synchronize data in real time, and maintain seamless front-to-back communication.
- Followed modern coding standards and best practices for performance optimization and maintainable front-end architecture.
